### Income and expenditure

#### Introduction

It is important to complete the full budget as accurately as possible because it'll help you see:

- · what money you have coming in;
- · what money you need to pay your essential bills; and
- · what money you have left over to pay your debts.

### Monthly budget

The budget asks for monthly figures. If any of your income or outgoings are paid weekly, fortnightly or four-weekly, you'll need to change them to monthly figures. Making sure that all your figures are monthly will help you to create an accurate budget. Use these instructions to change your figures to monthly. You may find it helpful to do your calculations on a separate sheet of paper, or photocopy the budget so you can complete a first draft. This will give you the opportunity to look over your figures and check that you have covered all of your income and outgoings.

#### **Instructions**

**To change weekly to monthly figures**Weekly figure x 52 (weeks) divided by 12 (months)

**To change fortnightly to monthly figures**Fortnightly figure x 26 (payments) divided by 12 (months)

**To change four-weekly to monthly figures**Four-weekly x 13 (payments) divided by 12 (months)

#### Get advice

Useful tips are included in some sections of the budget to help you complete it. If you need extra help or want to discuss your situation, get advice from a money adviser. To find a free money adviser, use the Money Advice Service's Debt Advice Locator. Go to **moneyadviceservice.org.uk/debt-advice-locator** or call **0800 138 7777**.

If you have a money adviser, you can also use this space to list any questions that you want to discuss with them.

Only include an amount if you're using an agency and they've included a debt admin fee in the Agency information section at the start of the budget. If you're paying a debt admin fee, get advice as you may be able to get a similar service for free.

### Amount left over for your creditors = Box 28 - 29

If you have nothing left over to pay your creditors, or your outgoings are more than your income, get advice. You'll still have options.

### Your debts

You now need to list all your debts and sort them into priority and non-priority debts. If you live with a partner and you're dealing with your debts together, also include your partner's debts. Remember to include any joint debts that you've taken out with someone else, even if you don't live with them. You should record the full amount owed for a joint debt. Don't split the balance.

### **Priority debts**

It's important to deal with your priority debts first because these creditors have more power to get their money back. This means that you may risk losing a possession, such as your home or car, or an important service, such as your gas and electricity supply. In some cases you could be sent to prison, but this is rare. See the Priority debts table at the end of the budget for details of the most common priority debts. If you've already agreed a repayment amount with your priority creditor, enter this in the Agreed monthly payment (if applicable) box. If you're unsure whether a debt is a priority, or finding it difficult to come to an affordable arrangement with a creditor, get advice.

### Non-priority debts

Non-priority debts are dealt with last because these creditors have less power to make you pay. Your possessions and essential services are not directly at risk. Examples of non-priority debts include: unsecured loans, credit cards and overdrafts, catalogues and doorstep loans. Water is also a non-priority debt, unless you live in Scotland and it's being collected with your council tax. If you're unsure whether a debt is a non-priority, get advice. If you have a county court judgment or decree and are behind with payments, get advice. In Northern Ireland county court judgments are collected by the Enforcement of Judgments Office. If you've already agreed a repayment amount with your non-priority creditor, enter this in the Agreed monthly payment (if applicable) box.
